

May 2010

Dear Educators,

Want your students to get excited about WATER SCIENCE and NATURAL RESOURCES? Do *you* want to learn more about WATERSHEDS? Then save the date and join us at our second annual CLEAR CREEK WATERSHED FESTIVAL!

Saturday, September 18, 2010
10am to 3pm • Idaho Springs

It will be a fun-filled day for educators, students, and families to check out 20+ environmental booths with environmental information, activities, and demonstrations by groups like Trout Unlimited, EPA, Audubon Society, Colorado Renewable Energy Society, Clear Creek Ranger District, and lots more! There will also be live music, other entertainment, and food.

This festival offers a fantastic opportunity for classroom discussions/lessons on watersheds, natural resources, water science, sustainable living, and more! You could even offer this incentive — if students bring in their completed WATERSHED PASSPORT they receive extra credit or earn homework passes! Set a good example and show them your completed PASSPORT to start some thought-provoking dialogue on how we use natural resources in our everyday lives and what sustainable living and sustainable watershed management mean.

Let me know if you'd like me to send you more detailed information when school starts up again in the fall. In the meantime, feel free to contact me if you have any questions —

chris@clearcreekwater.org or 303-567-2699.

See you on Saturday, September 18th!

Warm regards,

A handwritten signature in blue ink that reads "Chris".
